TablesWin produces fully customizable gaming tables and casino equipment. TablesWin represents the connection between technology, design and art. A company born as derived by the “Meneghetti Mobili” furniture brand, an established artisan joinery from Bassano already present in the market for 30 years. From the union between experience and the freshness of new technology emerges TablesWin, a company that can create the “**sartorial**” **product**, stitched to perfection on the desire of the customer. An enchanting result, thanks to the use of the best raw materials and to a maniacal pursuit of perfection in the details.

**TablesWin reinvents the craftsmanship**, building to the manufacturing tradition and also through the use of the most modern technologies, thanks to the main company's engine: the passion and devotion to a complex craft. Charming and immortal TablesWin is able to design and develop products that go beyond the simple object, becoming true masterpieces.

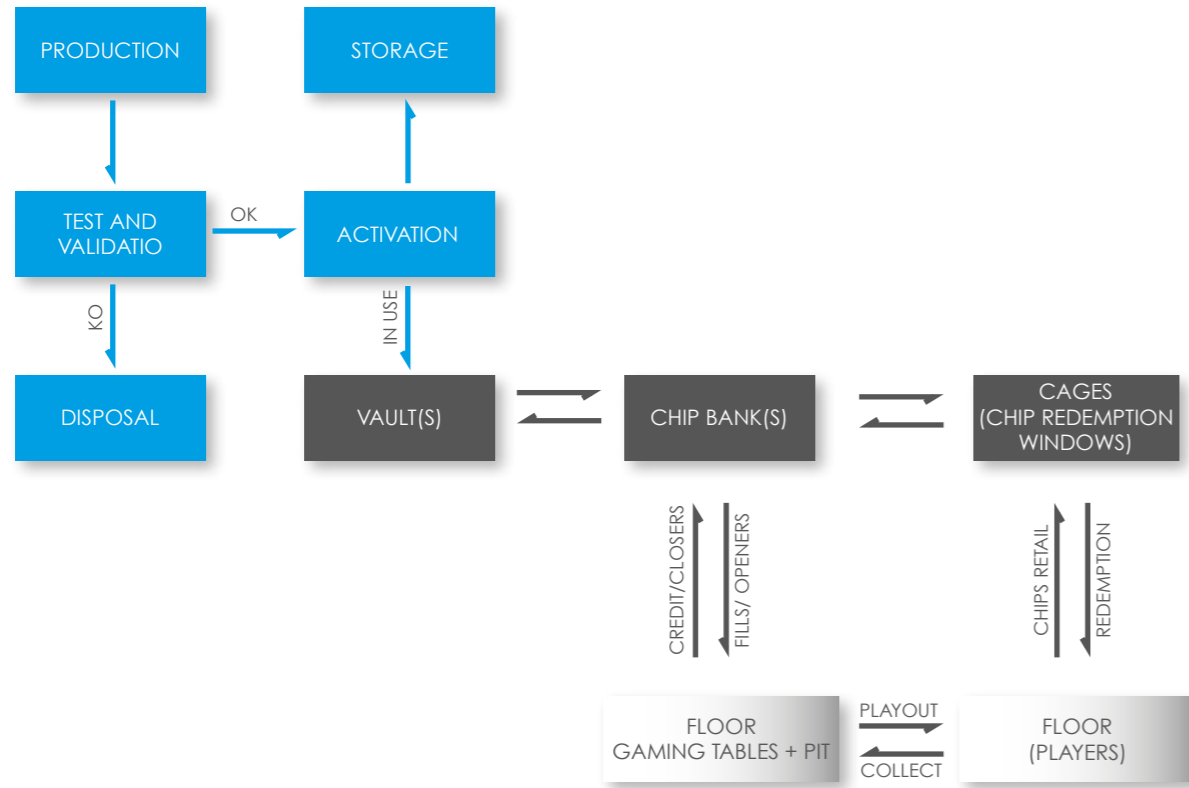

# CIMS SYSTEM

CIMS is designed and developed to fully automate all processes operating on the management of the counting of gambling chips inside your casino. The basis upon which the entire architecture is developed for the construction and implementation of the whole system in its various solutions is the electronic chip to the edge. CIMS is modular, can work individually on a single table or single cashier desk, or form a network to multiple tables and multiple cashiers. CIMS extract value from our chips, jetons and plaques by:

- RfId Casino Cage (Vault, Chip Bank and redemption windows)
- Casino Floor RfId Readers for:
  - Pit boss - RFID Portable Chip Reader.
  - American Roulette Tables.
  - Card Tables (Black Jack, Punto banco, Caribbean stud poker,...).
  - Pc Server with GTI Casino Software Application.

# FUNCTIONALITY FEATURES

- Fully automated management, eliminating manual processes, minimizes human error and improves the overall efficiency.
- Easy to use software, offers immediate access to a complete and accurate database and their individual valid data.
- Reads chips in any place.
- Increase safety and verifies the exchange of cash flows against chip input and output, monitoring every transaction and verifying manual counts.
- Provides a secure inventory of chips.
- Monitor the activities of the chips (lids and locks).
- Full integration possible with the desktop systems of third parties.
- Provides information for surveillance systems, if integrated.
- Provides an extensive range of reports.
- Provides all the data "real time".
- It 's constantly updated and enhanced with new features.

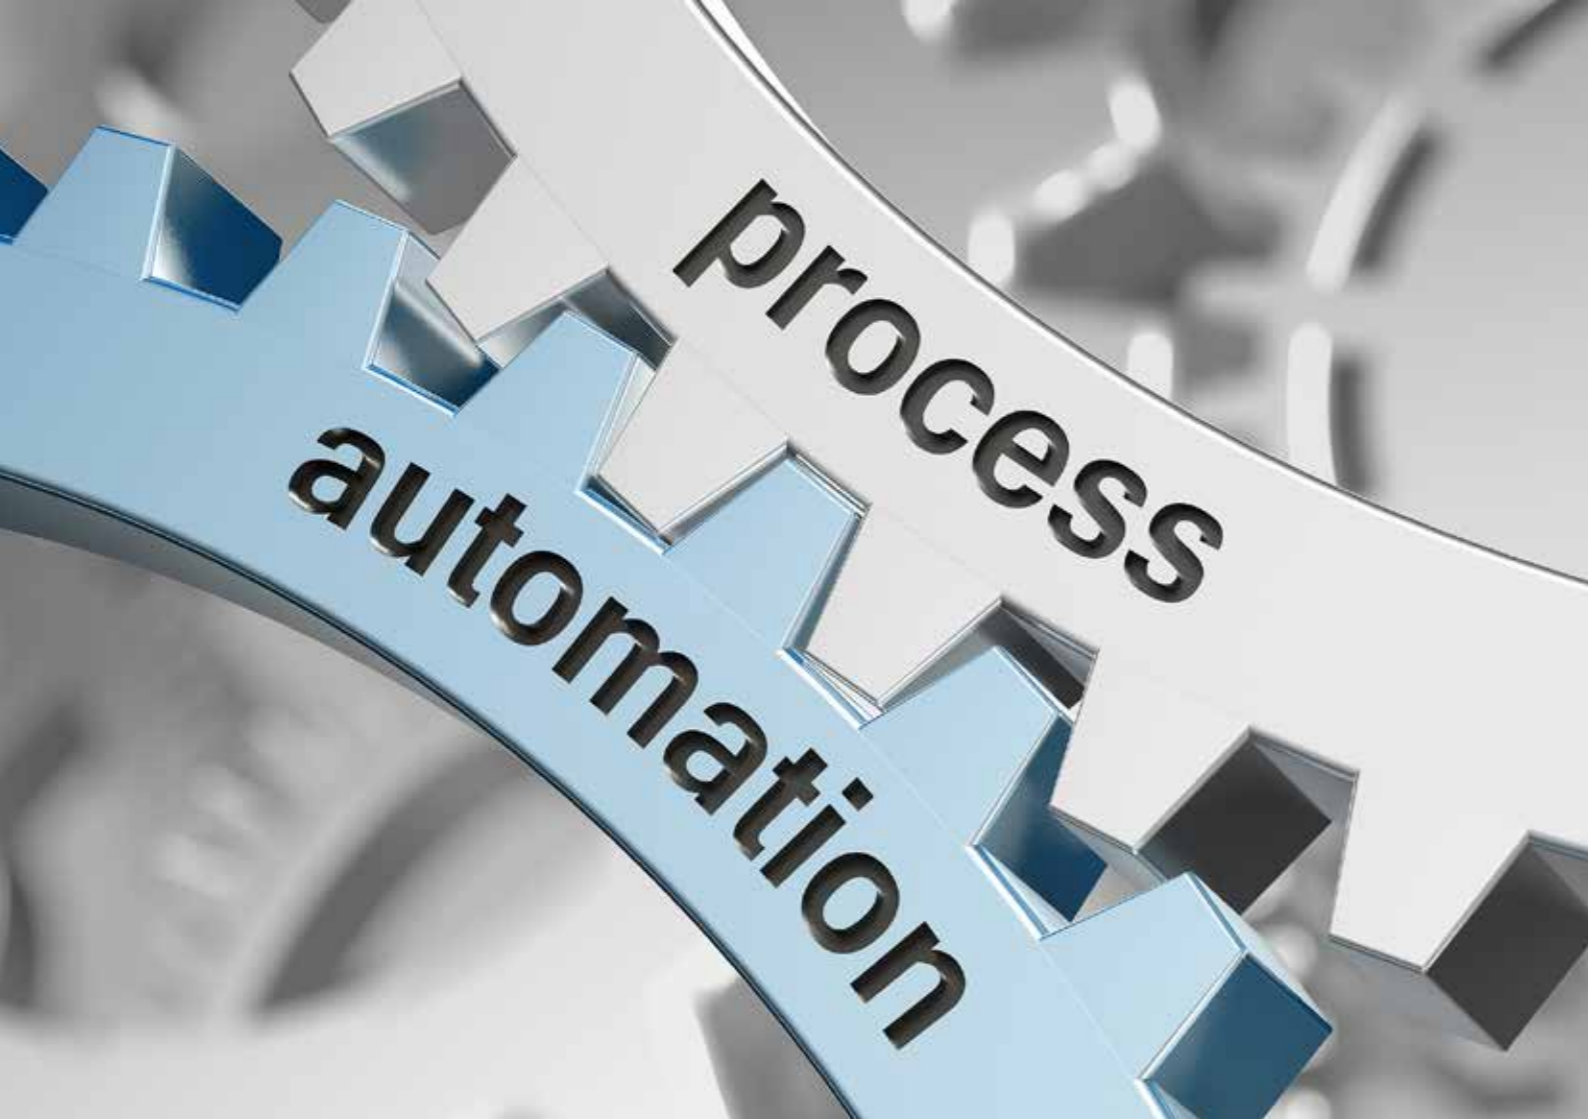

# RFID SYSTEM

# IMPROVE MANAGEMENT

- RFID Poker Solution automatically calculates all POT and RAKE AMOUNT.
- RFID Poker Solution is our innovative, easy to use RFID Poker Table System that makes possible to eliminate human errors and increase game speed and incomes by up to 30%.
- RFID Poker Table System combines a Poker Table, an RFID electronic unit that reads and validates a large quantity of gaming chips, a touch-screen tablet PC and an easy-to-use, complete software.

This fast pot scanning reduces game down time by minimizing delays, making it possible to generate many additional rounds per hour. It also eliminates dealer errors by instantly calculating rakes and more, protecting your assets from human error while identifying counterfeit chips. What's more, by automatically counting all gaming chips your dealers have more time to focus on the players and providing better customers service.

RFID Poker Table system enhance your poker table management processes by providing you a wide range of reports and statistics giving you the information necessary to maximize your casino's efficiency. This information can be used to identify the most profitable hours of play. The reports can be sent daily to external gaming authorities, if required.

## KEY FEATURE & BENEFITS

- Allows automatic, fast and accurate accounting of chips.
- Enables greater game speed while eliminating rake, round-up and other calculation mistakes.
- Automated chip verification increases table security.
- Assists dealer with game supervision and payouts.
- Available with an attractive game activity and statistics display that includes pot information, rake and more.
- Also available with a progressive jackpot option.

# INSTALLATION

- Fits any poker table.
- The reader and its power supply can be installed out of sight anywhere under the table.
- No hardware setting is required.
- Easy compatibility with mini-touch-screen tablet PC (not included).

# RFID SOLUTION

RFID poker table solutions increase table efficiency and game speed while simultaneously eliminating costly calculation mistakes and reducing the downtime between games.

We also offer a progressive jackpot module to increase the performance of your tables.

RFID CHIP TRAY

By embedding a float-tray antenna in a regular size chip tray (12 tubes), our Card Table float Chip Tray automates your table chip counting procedures with a simple push of a button, and chip reading can be carried out at any time.

## RFID CARD TABLE TRAY/BOX

By embedding a reduced float-tray antenna in a Plaque Tray, our Card Table Plaque Tray automates your table chip counting procedures with a simple push of a button, and chip reading can be carried out at any time.

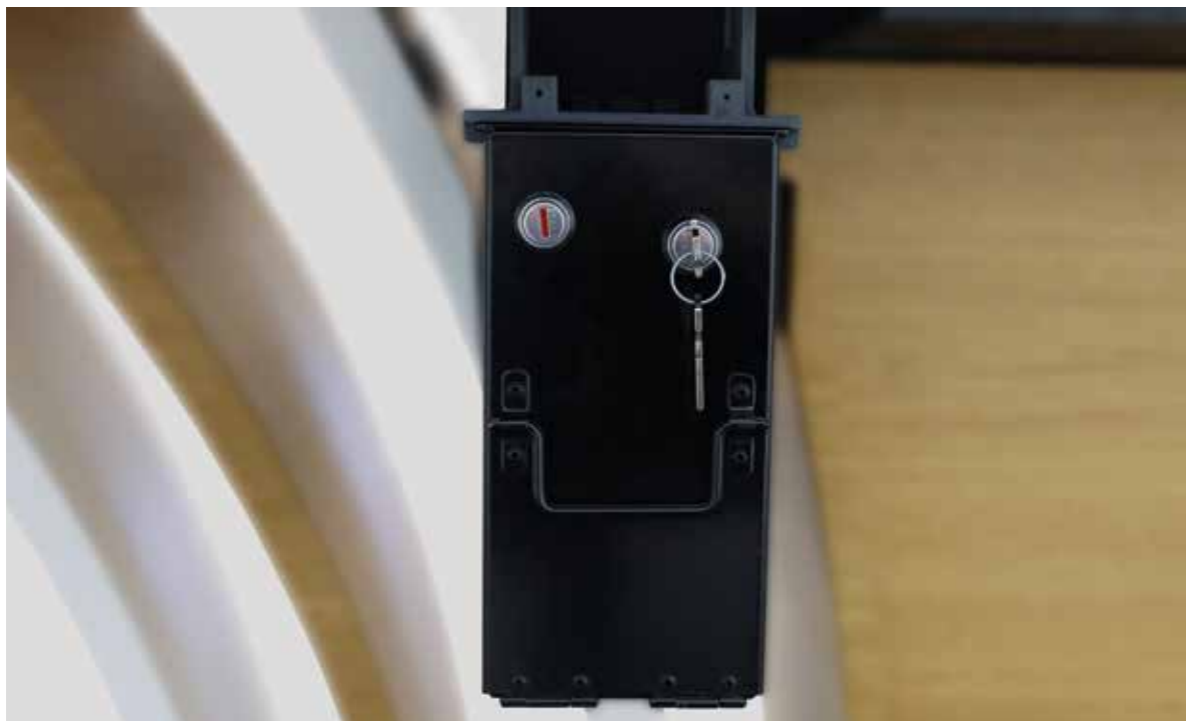

## KEY FEATURE & BENEFITS

- Enables automatic, fast and accurate accounting of chips.
- Gives management exact value of float on-line.
- Eliminates manual gross estimation by employees.
- Does not impact or change usual procedures.

# INSTALLATION

- The Plaque tray will fit in the plaque tray space on all card table or other similar shaped table.
- The reader and its power supply can be installed anywhere under the table
- No hardware setting is required.
- Saves time for pit boss to focus on other tasks.
- Available with locking covers.

# RFID DROPBOX

A perfect integrated antenna in an engineered drop box retainer support set automates your table tip and/or rake chip counting procedures with a simple push of a button, and chip reading can be carried out at any time.

## KEY FEATURE & BENEFITS

- Enables automatic, fast and accurate accounting of chips into tip/rake drop box.
- Gives management exact value of tip/rake drop box on-line.
- Eliminates manual end-of-day chip counting procedures.
- Does not impact or change usual procedures.

RFID AMERICAN ROULETTE

With our Roulette Float Tray Reader, your staff will enjoy instant access to an exact accounting of chips at any time. This innovation not only eliminates manual count processes that are prone to human error, it also saves time for your pit staff to focus on other tasks.

## KEY FEATURE & BENEFITS

- Allows automatic, fast and accurate accounting of chips, plaques and jetons.
- Gives management exact value of float on-line.
- Eliminates manual gross estimation by employees.
- Does not impact or change usual procedures.
- Saves time for pit boss to focus on other tasks.
- Available with locking covers.

# INSTALLATION

- Fits any roulette table with minor modifications.
- The reader and its power supply can be installed out of sight anywhere under the table.
- No hardware setting is required.
